2021 YMCA SUMMER DAY CAMP MASK INFORMATION

EFFECTIVE 7.1.21

We will continue to monitor and adjust our mask procedures based on recommendations from the CDC and state and local health departments.

Based on recent updates to local health and safety guidelines, the only location where masks will be required for campers and staff is on buses.

YMCA MASK INFORMATION FAQ

Q. How will my child store their mask when they are not wearing it?

A. Parents may choose to send their child with a gaiter-like face covering or with a lanyard which can remain on a child's neck when not in use. Families are welcome to bring a storage container, if preferred.

Q. Will the YMCA provide face masks?

A. The YMCA will not provide face masks for participants.

Q. Does my child's condition exempt him/her from wearing a mask?

A. YMCA staff are not able to provide guidance to parents regarding individual conditions. If your child has a physical, medical, or health-related condition that prevents them from wearing a mask or face shield, please let our staff know at drop-off. All participants must continue to follow social distancing and hand sanitizing protocols. Please contact your Camp Director if assistance is needed.

Q. Is it safe for my child to be without a mask during swimming, sports, and active games?

A. Our guidance comes from the State Department of Health and the Center for Disease Control. At this time, they are not recommending masks be worn in water or during physical activity. We're taking additional precautions in all areas, including practicing social distancing and conducting programs outside when possible.

Q. What happens if I refuse to allow my child to wear a mask?

A. If someone is not willing to accept the required protocol of the Y to protect the health and well-being of participants and staff, they will not be permitted to participate in YMCA programming.
